Health Canada Grants THC BioMed Licence to Cultivate Marihuana

THC.CSE

THCBF - OTC

TFHC.F

Vancouver, B.C. – (February 21, 2016) THC BioMed Intl. Ltd. is pleased to announce that our wholly – owned subsidiary, THC BioMed Ltd. has been granted a license to produce Medical marihuana under Health Canada’s Marihuana for Medical Purposes Regulations (MMPR).

Trading of THC.CSE was halted for one day this past Friday at the request of the company pending this announcement. Trading will resume as markets open tomorrow, Monday February 22.

“ We are filled with emotion and pride and take this opportunity to thank our dedicated shareholders for helping us get to this point. Now we look forward to providing the highest quality product to our customers and value to our shareholders as we work diligently to build a world class cannabis company” said John Miller President and CEO, THC BioMed Intl Inc.

THC BioMed has been granted authority to cultivate marihuana and the authority to conduct research and development with medical marihuana. Finalization of our application to produce cannabis oil is pending.

“ As an investor and Director of THC BioMed Intl. Ltd. I want to thank the staff for reaching this important milestone. We have a unique approach to this business as evidenced by our focus on research and development as well as our agreement to acquire Supra; a Health Canada licensed Cannabis Testing Laboratory. Commented George Smitherman

THC’s Vision is to be on the leading edge of scientific research and development of products and services related to the medical cannabis industry. Management feels that THC is well positioned to be in the forefront of this rapidly growing industry where our high standard of excellence and our commitment to scientific research and new product and service development.
